

3-D Stereo Sensor

- **Resolution 1300 x 1080 pixel**
- **Gigabit-Ethernet (GigE) interface**
- **Measurement data preprocessing**
- **Simple and fast mounting**
- **Sturdy metallic housing**

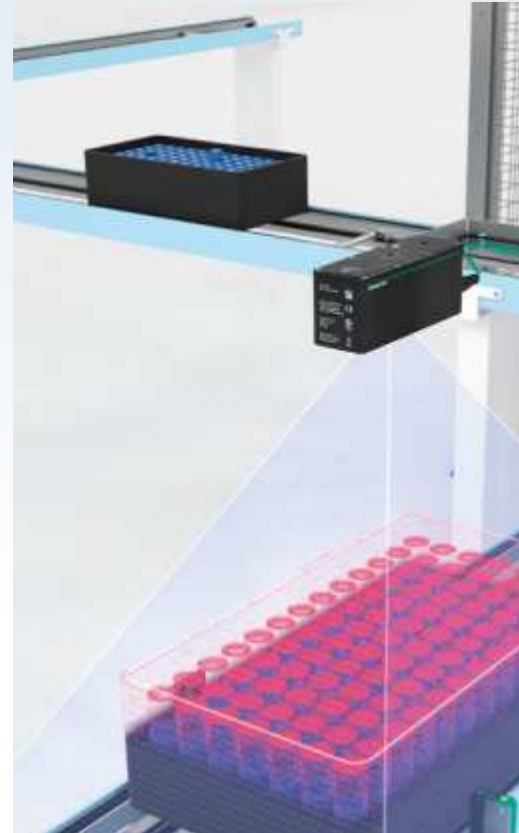

3-D Stereo Sensor

- **Detection range: max. 900 mm**
- **Measurement range: horizontal: 400 mm, vertical: 300 mm, deep: 300 mm**
- **Light source: LED projector**
- **Light type: Infrared**
- **Wave length: 850 nm**

3-D Stereo Sensor

**Stereo-Vision Sensor
Creates High-Precision
3-D Images during an
Ongoing Process**
