

# Data Matrix Code Tape

- **Self-adhesive for fast, secure installation**
- **Chemically resistant to fuels and oils**
- **-40 °C to +150 °C operating temperature**
- **Temporary replacement code strips are easily generated from any printer using online program**

# Data Matrix Code Tape

- Up to 70 % of the code can be damaged or obscured without loss of readability
- Separate event marker strips trigger switch outputs
- Dual parallel codes are standard, but custom stack heights are possible (vertical movement tolerance changes proportionally with square height)

# Data Matrix Code Tape

## Stocked Lengths

All stocked lengths are “dual code” type (2-high pattern)

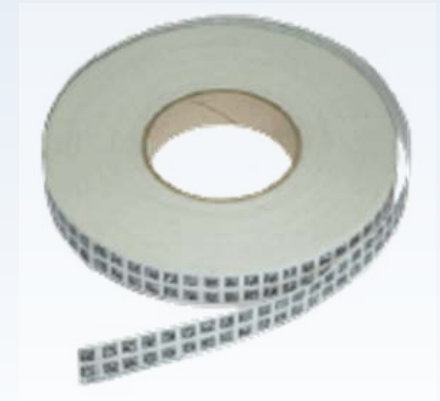

PCV0.5M-CA20-0 (0.5 m length)

PCV10M-CA20-0 (10 m length)

PCV20M-CA20-0 (20 m length)

PCV50M-CA20-0 (50 m length)

PCV100M-CA20-0 (100 m length)

# Data Matrix Code Tape

- Automated storage and retrieval systems
- Overhead material handling
- Floor conveyors
- Lifts
- Rotary turntables
- Stage lighting control
