

# ENI11HD

- **Incremental rotary encoder**
- **Protected against shaft currents**
- **Rotatable terminal box**
- **Standard output options**
- **Reliable speed feedback for large motors**

# ENI11HD

- **ENI11HD-H for hollow shaft**
- **ENI11HD-R for recessed hollow shaft**
- **Shaft load 300 N axial and 400 N radial**
- **Shock and vibration resistance to 200 g and 20 g**
- **IP protection of IP66 and IP67**

# ENI11HD

- **Cranes**
- **Steel mills**
- **Paper mills**
- **Renewable energy**
- **Ship building and offshore**
