

L2 Series

- **Compact housing with high-visibility LEDs**
- **5-way, quick pivot sensing face**
- **Pushbutton and PACTware adjustability**
- **NPN output, single, and dual switch point**
- **PNP output, single, and dual switch point**
- **Software-configurable retroreflective operation**
- **Extended -40 °C temperature models**

L2 Series

Sensing Ranges

UC500 Diffuse range: 35 mm ... 500 mm

UC2000 Diffuse range: 60 mm ... 2 m

UC4000 Diffuse range: 200 mm ... 4 m

L2 Series

- **Retroreflective mode allows reliable detection of curved, slanted, or acoustically absorbent objects**
- **Traditional level control processes**
- **Object detection where minimal size and maximum range (to 13 ft) is required**
