

Pile Driver Design

PILE DRIVER

- **The world's toughest proximity sensor—proven to outlast plastic-face designs by over 20X!**
- **100% stainless steel construction (machined from single-piece stock)**
- **Connectivity options include 2-meter PUR cable, and integral or pigtail quick disconnects**
- **DC and AC/DC supply options, weld-immune models**
- **Standard and extended range designs**
- **0.7 mm sensing face thickness**

Pile Driver Design

Sensing Ranges

8 mm diameter models

NMB1.5-8... 1.5 mm

NMB3-8GM... 3 mm

12 mm diameter models

NMB2-12... 2 mm

NMB5-12... 5 mm

18 mm diameter models

NMB5-12... 5 mm

NMB10-12... 10 mm

30 mm diameter models

NMB8-30... 8 mm

NMB15-30... 15 mm

Pile Driver Design

- Anywhere traditional sensors provide a shorter-than-required life span
- Error-proofing
- Part-presence
- Welding automation
