

# SU19 Series

## Fiber-optic Sensors

- **Advanced fiber sensor for challenging applications**
- **Displays percentage of received light compared to taught value**
- **Automatic gain compensation with too much light**
- **Multiple fiber operating modes and integral timers**
- **Gang mount up to 18 sensors reduces wiring time**

# SU19 Series

Series	SU19/	SU19.1/
Function	Main unit	Expansion unit
Supply voltage	10 ... 30 VDC	10 ... 30 VDC
Sensing range	Dependent on fiber-optic cable and sensor settings	Dependent on fiber-optic cable and sensor settings

# SU19 Series

- **Error-checking for O-rings on gaskets**
- **Detect automotive glass with thru-beam fiber optic cable and glass detection mode**
- **Detection of small electronic parts on web using focusing adapter and high-resolution mode**
- **Noncontact level control of liquid in clear tube**
