

Surface Mount Pile Driver

- **Requires only 1/10th the mounting space of cylindrical models**
- **Cable jacket immune to oils, greases, and weld spatter**
- **High visibility power and output LEDs**
- **Completely sealed against liquid ingress**

Surface Mount Pile Driver

Sensing Range

F104M series: 6 mm

Surface Mount Pile Driver

- Use wherever plastic-face sensors provide insufficient operational life
- Stamping
 - Over/underfeed sensing
 - Pulled slug detection
 - Part presence – transfer press fingers
- Welding
 - Part-in-place verification
 - Sheet presence – grippers
